SMART Protect
Unit 3, Thanl Warehouses,
6th Street, Al Quoz PO Box 38097,
Dubai, UAE

SMART Protect is a product of Automotive Repair Systems LLC

What is SMART Protect?

SMART Protect has been created by experts in the Automotive Smart Repair industries, thus creating a winning formula.

SMART protect is a revolutionary protection plan that covers small damage to your vehicle, keeping it in tip-top condition.

It provides protection to your vehicle at a fraction of the cost of a conventional bodyshop repair.

If you use your vehicle for Social Domestic & Pleasure purposes only (including travelling to and from a permanent place of work) and are a UAE resident with a valid UAE driving licence, cover can be provided for the following damage:

- **Paint Scuffs**
- **Light Scratches**
- **Scuffed Bumpers**
- **Minor Dent**
- **Alloy Wheel Scuffs and Scratches**
- **Headlight Rejuvenation**

What is SMART Repair?

SMART Repair is the collective name for Small Medium Area Repair Techniques. The SMART Repair concept and technology that supports it were originally created to offer the motor industry a fast, cost-effective yet environmentally friendly solution to assist in the cosmetic repair of used vehicles.

Historically, damaged vehicles were sent to traditional body shops for all cosmetic repairs – no matter how small. This resulted in vehicles being away from the customer for up to a week whilst repairs were completed.

SMART Repair is the most efficient and cost effective form of cosmetic repair in the motor vehicle industry and embraces all health and safety requirements.

The Benefits from a SMART Protection Plan

- ✓ Keep your no-claims bonus on your standard motor insurance protected
- ✓ Improve your car's resale value
- ✓ Free your car from little scrapes, trolley-bashings, scratches and chips
- ✓ Affordable protection that you can budget for
- ✓ User-friendly process
- ✓ A unique, easy-to-use policy for private vehicle owners
- ✓ Have access to factory-finish, rapid repair centres countrywide

Paint Repair

Chips, scratches and bumper scuffs are both unsightly and have a negative effect on the cosmetic appearance and subsequent value of a vehicle.

Historically a vehicle needing this form of repair would have been sent to a conventional Bodyshop with the repair often taking a week and costing many hundreds of pounds.

Headlight Rejuvenation

Most modern vehicles have plastic headlamps, which in time, can become discoloured when exposed to extreme sunlight. This greatly reduces the effectiveness of your night-time vision and is extremely dangerous.

SMART repair can rejuvenate the headlamp to a near-new appearance for a fraction of the cost of replacement.

Paintless Dent Removal

The repairs are carried out using specialist tools that enable a Technician to "massage" the dent out of a body panel without having to repaint the panel.

Paintless Dent Removal (PDR) is the most skilled SMART Repair process taking many months of tuition before a Technician is sufficiently skilled to competently undertake PDR in the "field".

Alloy Wheel Refurbishment

Alloy wheels are now common place on most new cars and although in appearance they are appealing, they are more susceptible to potholes and kerb damage.

Through our team of highly trained SMART Technicians, we can provide a hassle free, professional and cost effective remedy to bring your alloys back to their former glory.

BRONZE PLAN

Bronze Protection Plan

- Covers:

- Alloy Wheels
- Headlights
- Paint

▶ 2 Year

4 Repairs per plan

SILVER PLAN

Silver Protection Plan

- Covers:
